

# Chaco Canyon Buiding Phases

This map of Chaco Canyon (36.0606 N, 107.9617 W) in New Mexico, USA, was created by Gary W. Chandler, University of Kentucky, Department of Anthropology, as part of the New Mapping Project, Department of Geography. This map was created to display the location of Great Houses in Chaco Canyon, their construction start dates, water sources around the canyon, and the general topography of the canyon. This map was created utilizing a georeferenced Open Street Map, with added annotation layers containing appropriate labels and location data. This map was created utilizing QGIS 3.3. Grenoble software, with a map creation date of October 17, 2024.
